As you read this letter, the March 1st deadline has passed for submittal of annual reports for the various agencies. These reports are a major pain point for many businesses, consultants and government entities alike. I am sure many of word were stated during the gathering and preparation of this information, including four letter, multi-syllable swear words. Now you may have raised some eyebrows with the people around you or perhaps you were joining in on the chorus, either way you may have been relieving the pain you had felt. Yes, you heard me right, yelling out “S@!t” or “D&%M It” may have an actual neurological link to pain you feel (well at least of physical type). At least that was what the article I was reading last month was telling me.

In a recent article in The Scientist, the author, Emma Byrne (who penned the book “SWEARING IS G*OD F*R YOU, The Amazing Science of Bad Language”) discusses an experiment performed utilizing a stopwatch, freezing water and a multitude of volunteers. The volunteers would stick their hand in the freezing water, once while stating a non-curse word and once while cursing. The results were consistent: when a swear word was uttered the volunteers were able keep their hand in the water twice as long and they reported that the water felt less painful. The author does go on to explain that other factors (i.e. pain anticipation, gender roles, social expectations) do play a part in how we feel pain. Putting these other points aside, it seems that many of us may have an argument to our use of crude language.

So the next time you stub your toe, hit your head or realize you just put last year’s numbers on that 150 page report, remember that an obscenity may help with your overall handling of your pain management for the time being. Of course we all wait in anticipation over the next 364 (or 365) days to when we will gladly repeat the same dance (hopefully without too much pain).

“At times FET may seem more of a support group than a professional association; but seriously, it’s an amazing organization where the regulated, the regulators and subject matter experts gather as peers and share knowledge, experiences and resources . . . it is pretty cool.” - Paul Zovic
Final Rule: Definition of “Waters of the United States”
Addition of Applicability Date to 2015 Clean Water Rule

The Environmental Protection Agency and U.S. Department of the Army (the agencies) finalized a rule adding an applicability date to the 2015 Rule defining “waters of the United States.” The final rule published in the Federal Register on February 6, 2018. The 2015 Rule will not be applicable until February 6, 2020. This amendment gives the agencies the time needed to reconsider the definition of “waters of the United States.”

DNR Submits Comments on Attainment Designation

On Wednesday, February 28, 2018, the Wisconsin Department of Natural Resources (WDNR) submitted its comments to the United States Environmental Protection Agency (USEPA) reiterating the Governor’s original recommendation that USEPA should designate all areas of Wisconsin as attainment of the 2015 ozone national ambient air quality standard (NAAQS). In December, USEPA informed Governor Walker of its intention to designate several areas of Wisconsin as nonattainment for the standard. Those areas are:

- Milwaukee County
- Ozaukee County
- Racine County
- Washington County
- Waukesha County
- Door County north of the Sturgeon Bay canal
- Manitowoc County, the eastern portion of the county within approximately 3 to 11 miles from the lakeshore as shown in Figure 1
- Sheboygan County, the eastern portion of the county within approximately 2.5 to 6 miles from the lakeshore as shown in Figure 2
- Kenosha County east of Interstate Highway 94

Figure 1.

USEPA intended Nonattainment Area in Manitowoc County for the 2015 Ozone Standard
An Invitation to Submit Regulatory Update Articles

We invite submissions of articles on regulatory updates from our members for this newsletter. Note that all articles will be peer reviewed before publication, and should be free of the author’s opinion or editorial content except when instructive or useful to the topic at hand, and free of any solicitation or offer of services.

Submit your articles to: info@fetinc.org

By the Numbers

Did you know? As of late February, FET has already sold 31 booths plus two outdoor exhibits for our October Annual Conference. Become our 32nd booth by calling today!

Figure 2.

USEPA intended Nonattainment Area in Sheboygan County for the 2015 Ozone Standard

USEPA has indicated that it will be issuing a final decision in late April. If so, nonattainment area designations are expected to become final by the end of June. This would change the construction permitting requirements in the designated nonattainment areas, requiring emission offsets and, for significant emissions of nitrogen oxides (NOx) and volatile organic compounds (VOC), the application of the Lowest Achievable Emission Rates (LAER) for new major sources and for major modifications of existing major sources.

Additionally, the state would be required to develop a State Implementation Plan (SIP) over the next several years, and determine Reasonably Available Control Technology (RACT) for existing major sources in the designated nonattainment areas. Such control measures would then be implemented over a time period yet to be determined.

FET’s tagline, “Educating & Developing Excellence in Environmental Professionals”, reflects valuable resources FET offers to benefit your company and staff. Numerous educational and networking opportunities are offered during the year at a reasonable cost. Through seminars, free chapter meetings and our popular annual Conference, FET is an important resource to assist you in enhancing your environmental knowledge and learning.

Check out these upcoming Seminars, Chapter Meetings and Course offerings:

**March 2018**

**Wednesday, March 21st - HazWoper Seminar:** Hilton Garden Inn, 11600 W. Park Place, Milwaukee, WI, 53224. Registration on page 12.

**Wednesday, March 21st - WI CHMM Chapter Annual Meeting:** Hilton Garden Inn, 11600 W. Park Place, Milwaukee, WI, 53224; following the HazWoper seminar at 5:00 PM.

**Tuesday, March 27th - SC Chapter Tour and Meeting at 3:00 PM:** Join the SC Chapter for a tour and chapter meeting at Octopi Brewing, 1131 Uniek Dr, Waunakee, WI 53597. For additional information, contact Emily Jones, emilyj@madsewer.org. RSVP to Julie at julie@fetinc.org by Friday, March 23rd.

**April 2018**

**Saturday, April 21st: Milwaukee Riverkeeper Park Clean-Up**
Mark your calendars to join the WI CHMM Chapter on Saturday, April 21 from 9 am until 12 Noon to participate in the Milwaukee Riverkeeper’s Annual Park Clean-up. Location information will be noted in upcoming issues on EnviroNotes.

**Wednesday, April 25th - Key Areas of Environmental Compliance:** Hilton Garden Inn, 11600 West Park Place, Milwaukee. Registration on page 13.

**Wednesday, April 25th - SEWI Chapter Annual Meeting at 3:00 pm:** Following the Key Areas of Environmental Compliance seminar at the Hilton Garden Inn, 11600 West Park Place, Milwaukee, WI.

**May 2018**

**Thursday, May 3rd - Wisconsin Water Issues Seminar:** American Family Insurance Headquarters, 6000 American Parkway, Madison, WI. Registration on page 14.

**Thursday, May 24th - RCRA Refresher:** This program will be held at the Hilton Garden Inn, 11600 West Park Place, Milwaukee.

**July 2018**

**Tuesday - Friday, July 24th - July 27th - EHMM 3.5 Day course:** This program will be held at the Hilton Garden Inn, 11600 West Park Place, Milwaukee. Due to attendee requests, we have expanded to 3 full days and a half day on Friday.

Get Calendar Updates on the Web: [www.fetinc.org](http://www.fetinc.org)

*If the Registration deadline has passed for a particular Seminar or program, please contact the FET office to see if registrations are still being accepted.*

MATC Environmental Health and Water Quality Technology Program:
50th Anniversary Celebration - Tuesday, March 20, 2018

Please join MATC for their 50th Anniversary celebration of the Environmental Health and Water Quality Technology program at the Milwaukee Area Technical College - Mequon Campus, Room A289 Lecture Hall at 5555 W. Highland Rd, Mequon, WI 53092 from 5:30 – 8:30 p.m. with registration starting at 5 p.m.

If you are a graduate or employer of graduates from one of these programs, please send photos, stories and other memorable moments for the event to Kathy Bates at batesks@matc.edu.

All are invited to celebrate! Please RSVP your attendance to Kathy batesks@matc.edu
Planning is Underway for the 2018 FET Environment Conference!
Tuesday October 23rd through Thursday October 25th

Same Location – New Name and Newly Remodeled Hotel!
This will be our 34th annual event, held in Pewaukee, WI. Are these dates on your calendar?

Calling all Exhibitors!
Now is the time to select your space for FET’s Environment 2018 Conference & Exhibition, to be held October 24th and 25th.

We thank the following businesses who have already secured their spots for Environment 2018:

- AECOM
- ALS Environmental
- American Engineering Testing
- Balestrieri Environmental & Development Inc
- Barton Solvents, Inc
- Brenntag - Great Lakes LLC
- Brownfield Environmental Engineering Resources
- Covanta Environmental Solutions
- Elite Environmental
- Environmental Monitoring & Technologies
- Enviro-Safe Resource Recovery
- ERM Inc
- Evoqua Water Technologies LLC
- Great Lakes Power Vac
- Heritage Environmental Services
- Hydrite Chemical Company
- Institute of Hazardous Materials Management
- North Shore Environmental Construction
- Northern Lake Service Inc.
- OBG
- Pace Analytical LLC
- Ramboll
- SCS Engineers
- Symbiont
- TestAmerica Inc
- TRC Environmental Corp
- Trinity Consultants
- Veolia North America
- Water Integrated Treatment Systems, LLC
- Wilcox Environmental Engineering Inc
- WRR Environmental Services Inc.

Reserve your exhibit booth today - call us at 262-437-1700 or visit the website, http://fetinc.org/website/exhibits/ for all of the details.

THUMBS UP

. . . to S.C. Johnson and Green Bay Packaging who recently hosted Chapter Meetings for FET members. Thank you to these Patron Companies for hosting our members and sharing information on what makes your company’s environmental, health and safety programs work so well!
Member Spotlight

Name: EMILY JONES

Company, Title and Role at Company: Emily is the Pollution Prevention Specialist with the Madison Metropolitan Sewer District. She has been there for 3 years, and previously worked for Clean Wisconsin and Epic.

The best part of your job? Educating businesses and the general public – making them aware of our function and the importance of what we do. I am in charge of the tours program with the district.

Birthplace, Family Info and Education: Born and raised in Madison. Graduated from UW-Madison with a B.S. degree in Biology and Life Sciences Communications. I just became an aunt last week to my nephew Henry!

Dream job when you were young: I wanted to be a major league baseball player, and then a professional musician (I play banjo and played trumpet in the UW Marching Band.)

What is the best advice ever received? It was from my former boss who encouraged me to take risks, and not let the fear of making mistakes hold me back.

FET Membership and Involvement: I’ve been a member of FET since 2015; I spoke at an FET event, and Patti Stickney encouraged me to join FET. I have spoken at FET events, including a session at the 2017 annual conference. I am also serving my second term as Secretary for the South Central Chapter of FET.

Value of Membership in FET: I initially joined FET to make connections with other industries in the environmental field; it was a chance to educate and be educated about many different businesses.

First Car: A red Isuzu pickup I inherited from my dad and brother – it had a stick shift, so if I wanted wheels, I had to learn how to drive it.

Favorite Food: Pizza

Favorite Phrase you say: “Learn from it and move on.”

Favorite Kind of Music: Bluegrass (I play banjo for the band “The Poor Hearts”)  

Favorite Wisconsin Restaurant: Tex Tubb’s Taco Palace in Madison

Favorite Place to Visit/Vacation: Pacific Northwest for the mountains and the ocean

Person you would most like to meet: Pete Seeger

Other activities and hobbies: I enjoy playing music, biking and playing in state parks, spending time with family and being active.

Three things you cannot live without: My banjo, a good pair of hiking shoes and coffee

One thing people might be surprised to know about you: I love trivia and I get surprisingly competitive when playing trivia-related games!

HAZWOPER Refresher is on March 21, 2018

The HAZWOPER Refresher course, hosted by the WI CHMM Chapter, will be held on Wednesday, March 21, 2018 at the Hilton Garden Inn, in NW Milwaukee. The seminar is designed to meet the annual refresher training requirements under OSHA’s standards for general industry and the construction industry on hazardous waste operations and emergency response (29 CFR 1910.120 or 29 CFR 1926.65). OSHA’s Hazardous Waste Operations and Emergency Response Standard (HAZWOPER) was promulgated in 1990 to protect workers working at hazardous waste sites, treatment, storage or disposal facilities. Workers responding to an emergency involving the release of a hazardous substance also require current HAZWOPER training.

The HAZWOPER standard applies to five groups of employers and their employees who may be exposed to hazardous substance, including hazardous waste. They are engaged in:

- Mandatory clean-up operations required by the government involving hazardous substances at uncontrolled hazardous waste sites
- Corrective actions involving clean-up operations at RCRA sites
- Voluntary clean-up operations at sites recognized by the government as uncontrolled hazardous waste sites
- Operations involving hazardous wastes that are conducted at treatment, storage and disposal (TSDF) facilities
- Emergency response operations for releases of, or substantial threats of release of hazardous substances.

If you or your employer are or have the potential to be in these groups, you should attend this refresher training. The eight hour class will help you meet this annual requirement. See page 12 for registration information.

Key Areas of Environmental Compliance

The Southeast WI Chapter is hosting a review of key environmental regulations on April 25, 2018 for our seasoned professionals, and also to assist members who are newer in their role and have had to take over being the Environmental manager/professional in their company. This program is intended to provide updated information on evolving environmental and regulatory issues. Topics include the newest federal and state regulatory updates, vapor intrusion standards, Environmental Management Systems – tools for sustainability, hazardous waste management and updates, empty container liability including abandoned drums, EPCRA reporting and lessons learned and updates regarding wastewater and water trends. Registration information can on page 13.

Northeast Wisconsin News

Northeast Chapter – Meeting Summary
February 13, 2018 at Green Bay Packaging

Attendees: Ryan Hass, Michael Dew, Molly Quakelaar, Chad Gutkowski, Troy Stucke, Dan Brady, Jason Martin

The tour of the Green Bay Packaging Inc - Green Bay Mill Division, plant began at 3:00 pm with a brief historical overview of the company and an in-depth look at the recycled paper making process from start to finish, presented by Ryan Hass of Green Bay Packaging. The company is 85 years old with over 3,000 employees operating in 15 states and Mexico. The Green Bay mill is unique in that is uses 100% recycled fiber and a closed loop process water system. Linerboard and corrugated medium, which are used in the manufacturing of corrugated boxes, is manufactured at this mill. The facility has found some surprises in their incoming recycled fiber, including a bowling ball and an engine block. That type of obstruction doesn’t make it through the production process, but slightly contaminated cardboard is fine - so send your greasy pizza boxes into recycling!

The process is generally characterized as Pulping (blending stock and water), Screening (removing unwanted wastes), and Refining (roughen the fibers) all before the product stream reaches the paper machine. The product stream contains 99.5% water when it reaches the machine, which is reduced in several steps to reach 7-9% water at the end of the process, when some 12-18 miles of paper is rolled onto a reel.

After the tour we held our NE Chapter meeting. We discussed the upcoming ISO14001 seminar and members indicated that they enjoyed the tour and would like to see more. The meeting adjourned at 4:50 pm.

Submitted by: Jason Martin, PE, CHMM – NE Chapter President
Environment, Health and Safety are focuses of Updated FET Mission Statement

Reflecting that a number of our members’ job descriptions now cover more than just the environmental focus in their positions, FET’s Mission Statement was recently updated to:

To educate members and other environmental, health and safety professionals on regulatory compliance and technological developments in a cost-effective manner through training, professional development and networking. FET accomplishes this through seminars, conferences, workshops, publications, webinars and online training, and other activities that address new and evolving regulations and policies in a non-advocacy manner.

The mission is summed up in our updated Tagline:

Educating and developing Excellence in Environmental, Health & Safety Professionals.

FET Conference Update – Have we got a Spot for You!

Our 34th annual event will be held October 24-25 at the Country Springs/Ingleside Hotel in Pewaukee, including a number of pre-conference professional development courses on Tuesday, October 23rd.

We are now contacting past exhibitors and inviting them to select their preferred booth locations for the 2018 Conference. If you did not exhibit at the 2017 Conference, and would like information on participating in this year’s big event, please contact FET at 262-437-1700. We’d love to have you be a part of this memorable event.

Daylight Savings Time is March 11th

Did you know the idea of daylight saving was first conceived by Benjamin Franklin? We spring forward this month - what will you accomplish with the extra daylight?

Employment Opportunities

Employment Available

Environmental Project Manager: Due to continued growth we are looking for an energetic, self-motivated environmental compliance professional. We provide high quality environmental compliance services to manufacturing, health care, and educational facilities. This position would entail assessment, planning and consulting services and requires significant client interaction. Flexible work scheduling is a big plus. Occasional overnight travel required. Salary and benefits are negotiable.

Minimum qualifications include:

- Degree in Engineering, Environmental Technology or related field
- Basic understanding of state and federal environmental regulations
- Minimum of five years in manufacturing or consulting
- Proficiency in the use of Microsoft Office 365 applications
- Self-starter and ability to master new concepts quickly
- Strong writing and communication skills
- Good organizational skills and a goal-oriented approach to task completion

Are you motivated to take on new challenges and become more professionally and technically diverse? Do you value a flexible work environment? Are you a hard worker that will do what it takes to get the job done with quality and a high level of responsiveness as your top priorities? Do you want the opportunity to grow with a company, take on new responsibilities, and not be limited in your career growth?

If so, email your resume to Stacy Anich at sla@meverden.com.

Employment Available continued on page 9
**Environmental Sustainability Specialist:** Green Bay Packaging is seeking an Environmental Sustainability Specialist with impeccable attention to detail and excellent communications and organizational skills to drive and promote sustainability program development. The position will be work closely with division staff, and internal and external stakeholders, to comply with sustainability reporting requirements and advance sustainability performance messaging. This position requires some travel and will report to the Corporate Director of Environmental and Sustainability.

**Responsibilities**

- Operate as lead, managing systems and processes, for **GBP fiber certifications**, Sustainable Forestry Initiative and Forestry Stewardship Council third party certifications; working closely with plant teams, consultants and certification bodies on uniform framework and conformance.
- **Standardize environmental sustainability documentation**
- **Develop harmonized company-wide responses and references**, including efficiencies on environmental sustainability reporting platforms: Carbon Disclosure Project (CDP), EPA reporting, SEDEX, EcoVadis, corporate social responsibility (CSR), Global Reporting Initiative (GRI-G4), and customer sustainability scorecard responses and sustainability customer audits
- Implement efficient processes related to environmental sustainability programs
- Complete internal audits of division **sustainability data quality assurance** and accuracy.
- **Conduct training and develop content** for subject-matter and programs
- **Field and coordinate responses** for related GBP environmental and sustainability programs, sustainability initiatives, certifications and customer sustainability inquiries.
- **Communications to key stakeholders** on best practices (e.g. waste, water, energy, etc.), certification records, key performance indicator metrics, site-specific sustainability reports, etc.

**Qualifications and Attributes**

- B.S. Environmental Science, Chemistry or Engineering preferred
- **Knowledgeable of environmental management practices** (e.g. water, waste, energy, etc.) and experience within manufacturing preferred
- Strong oral and written communication, problem solving and interpersonal skills with demonstrated ability to build effective relationships with stakeholders
- Effective **project management skills** with the ability to efficiently deliver and reinforce consistent messages at all levels within and outside of the organization.
- Excellent **organizational and prioritization skills**, complete projects, meet deadlines, while achieving effective and efficient outcomes
- Ability to work well in a fast-paced environment
- Technology savvy and proficiency in business software suites (e.g. Office, Outlook)

This full-time position offers a competitive wage and comprehensive benefit package that includes medical, dental, STD, LTD and company matching 401(k). Green Bay Packaging Inc. is an Equal Employment Opportunity employer.

Applicants can apply on [www.gbp.com/careers](http://www.gbp.com/careers) or email resume to lbauerlotto@gbp.com. To find more about Green Bay Packaging, visit [www.gbp.com](http://www.gbp.com)

---

**Membership Minute**

**History of FET Chapters**

The **South Central Chapter** was formed in the late 1980’s and initially called the Madison Chapter. The **Northeast Chapter** and **WI CHMM Chapter** were formed in the early 1990’s. The **Western Wisconsin Chapter** formed in 1994. With the formation of regional chapters, the **Southeast Chapter** was so named, after being called the Milwaukee Chapter for many years. Along the way, FET also had active Illinois Chapter. All five chapters are active with volunteer leaders who plan seminars and tours/meetings around the state.

Annual OSHA HAZWOPER Refresher
A Full Day Workshop Sponsored by The Federation of Environmental Technologists, Inc., Wisconsin CHMM Chapter

Wednesday, March 21, 2018 ● Hilton Garden Inn, 11600 W. Park Place, Milwaukee, WI, 53224, 414-359-9823
Registration 7:30 AM ● Program 8:00 AM – 5:00 PM ● Fee $140 FET Member/$190 Non-Member, includes Lunch

Seminar Purpose: This program will meet the annual refresher training requirements under OSHA’s standards for general industry and the construction industry on hazardous waste operations and emergency response (29 CFR 1910.120 or 29 CFR 1926.65).

88:00 – 8:15 Welcome and Introduction: Kevin O’Brien, Milwaukee County, Seminar Co-Chair
8:15 – 9:00 HAZWOPER – Overview of the OSHA Standard: Anthony Montemurro, River’s Bend Engineering
9:00 – 9:45 Deciphering the Safety Data Sheet: Robert Evangelisti, UW Whitewater
9:45 – 10:00 Break
10:00 – 10:45 Is it or is it not? Spill Reporting: Trevor Nobile, Wisconsin DNR
10:45 – 11:30 Practical Exercise Scenario: Robert Evangelisti, UW Whitewater and Kevin O’Brien, Milwaukee County
11:30 – 12:15 Lunch
12:15 – 1:00 Personal Protective Equipment and Work Zones: Ron Mitchell, SET Environmental
1:00 – 1:45 After a Spill, Who is in Charge?: Steve Rush, Malteurop
1:45 – 2:30 Ergonomic & Physical Hazards: Kimberly Hoppe Parr, GZA
2:30 – 2:45 Break
2:45 – 3:30 Untold Story of Emergency Response – Maintaining Control: John Spahr, Berry Global and Fred Ringle, North Shore Environmental
3:30 – 4:15 Meeting the Silica Standard – What a Company Must Do: Gary Fahl, Milwaukee Lead/Asbestos Information Center
4:15 – 5:00 Wrap-Up: John Spahr, Berry Global, Seminar Co-Chair

5:00 WI CHMM Chapter Annual Meeting

Available Hours: 7.5 DNR hours each for General Septage, Wastewater Safety and Waterworks Safety; 7.5 hrs may be eligible ABIH CM points and PE hrs, 0.7 CEU hrs, 7.5 CHMM hrs

Registration Form for HAZWOPER Refresher - March 21, 2018
FEE: $140 FET Member/ $190 Non-Member, includes Lunch and Printed Materials
