Tuesday PDC's

- **PFAS Updates and Strategies** will explore the latest regulatory and technological developments related to the investigation, management and remediation of PFAS.
- **Environmental, Health & Safety Primer** will provide a general understanding and update of environmental regulations and management. Major regulatory areas will be covered. It is recommended for individuals new to the environmental field, especially those with regulatory responsibilities. It also serves as a good refresher and overview. We will review regulatory requirements, permits, record-keeping, reporting, common violations and training.
- **DOT HazMat Training Half-day** will meet the DOT Hazardous Materials Training requirements of 49 CFR Training Requirements 172.700-172.704 for the highway shipment of common hazardous materials and hazardous wastes.
- **Air Quality Updates** is intended for new and less experienced staff responsible for air pollution regulatory compliance by providing information on state and federal regulations, permits and exemptions, records, reporting and monitoring.
- **Waukesha Clean Water Plant Tour (offsite)** is happening! Check the website for the upcoming details if you are interested.
